Why Zebra

Market realities...
and a game
changing solution

It's a new world in order fulfillment

Ecommerce is exploding...

Picking and sorting are now full time jobs in warehouses and retail stores due to...

High order volumes

Ecommerce orders are expected to double from \$3.53 trillion in sales in 2019 to \$6.54 trillion in 2022*

Increased order complexity

Warehouses are shipping individual items directly to homes and specific stores for customer pickup. Retailers need to fulfill online orders for in-store pickup, often in less than two hours

Faster delivery times

The on-demand economy of two-day, one-day and same-day delivery have become the new normal

How are warehouse and retail executives planning to address today's demands?

62%

Are planning to
deploy or upgrade
existing wearable
computers by 2022

Zebra's Total Industrial Wearable Solutions

**A new standard
in enterprise
wearable
technology that
delivers...**

Superior hands-free mobility

Industry-leading ergonomics

Zebra's signature rugged design

Unparalleled WiFi connectivity

Zebra's Mobility DNA

Superior manageability

Total Industrial Wearable Solutions address it all

Up to 30% increase in productivity...

and up to 50% less muscle effort.

How will your business benefit?

Process more orders every day

Increase order accuracy

Meet the fastest delivery times

...all with industry-leading comfort for your workers

Build your perfect Industrial Wearable Solution

WT6300 Wearable Computer

Start with the ultimate industrial wearable computer and add the technologies you need to maximize productivity in your business

RS6000

Ultra-rugged two-finger 1D/2D Bluetooth ring scanner ready for any environment — even the freezer

RS5100

Rugged single-finger feather-weight 1D/2D Bluetooth ring with flexible wearing styles and your choice of scan engines

RS5000 1D/2D and RS4000 1D

Ambidextrous rugged single-finger corded ring scanners — just swivel for right or left-handed operation

HD4000

Put step-by-step directions and more right in front of your worker's eyes with this rugged enterprise head-mounted display

HS3100/2100

Enable crystal clear voice for your voice-directed applications with these rugged Bluetooth or corded headsets with HD Voice

Where can you put Zebra's Total Industrial Wearable Solutions to work?

Warehousing / Distribution / Transportation and Logistics

- Receiving, picking and packing
- Carton put-away
- Replenishment
- Staging
- Truck loading/unloading
- Returns management

Retail

- Back of store bulk order picking
- Front of store picking for online orders
- Price audits/changes
- Store receiving
- Inventory management
- In-store communications

Manufacturing

- Inventory management
- Line-side replenishment
- Parts tracking

HD4000

HS3100/HS2100

The WT6300

The ultimate industrial wearable computer for hands-free mobility

Superior ergonomics

Easy, cost-effective migration from Windows CE and legacy wearable mobile computers

Rugged and ready for any environment

Loaded with features to boost workforce productivity

Glove-optimized display

Available with or without a keypad

Mobility DNA to take performance, usability and management simplicity to the next level

Superior ergonomics for
unmatched hands-free comfort

The WT6300 delivers superior ergonomics for unmatched all-day hands-free comfort

It's a lightweight device

The lightest in its class — just over 9 oz.

It's designed for wearability

Low center of gravity cuts muscle effort in half, minimizing fatigue and maximizing worker stamina

It's a perfect fit on everyone

With the micro-adjustable mounting system, every worker gets a perfect fit, without pressure points — all with the turn of a knob

Get a perfect fit in seconds on any size arm...with just the turn of a knob

Groundbreaking best-in-class mounting system

Pressure points are eliminated

Arm mount stays locked in place, but can be released in seconds

Non-absorbent material is easy to wipe down

Best-in-class closure system with micro-adjustability for a perfect fit, every time

Breathable, rubberized and vented silicone sleeve is comfortable on bare skin

Rugged and ready for everywhere — even the freezer

Rugged drop rating

Drop-tested from 4 ft./
1.2 m to concrete; the
only one in its category
drop-tested across the
operating temperature
range to ensure brittle
plastics won't shatter
in the cold

Extreme tumble rating

Reliable operation
after 1,000 1.6 ft./
0.5 m tumbles in
Zebra's punishing
tumble drum

Dust-proof and water resistant

With IP65 sealing,
it's dust tight, and
you can hose it
down with water

The only device in its class rated for the freezer

Built to handle
subzero cold to
extreme heat
-22° F to 122° F
-30° C to 50° C

Corning® Gorilla® Glass display

Fortifies one of the
most vulnerable
device elements
with best-in-class
scratch and shatter
resistant glass

Optimized for gloves

The display
automatically detects
gloves and adjusts
touch sensitivity as
needed — and works
even when wet

PowerPrecision batteries

Multi-shift power your workers can count on

Choose your preferred
battery cycle time

Standard 3350mAh
battery for full-shift-plus
run time

Extended 5000mAh
battery for longer
run time

Ready for the freezer

The extended battery is
rated for the freezer,
allowing your workers to
support cold storage

On-the-fly
hot swap mode

Swap batteries without
a reboot

No need to power down
or close apps — just
pop in a freshly charged
battery and keep working

Better manage batteries
with battery metrics

Easily spot and remove
batteries nearing end of
life before they impact
productivity with Mobility
DNA free Power
Precision Console app

Disinfectant ready

Prevent the spread of germs
between workers through
shared devices

Wipe down at the start of every shift

Special plastics and IP sealing
enable frequent wipedowns
with common disinfectants:
isopropyl alcohol and soap
and water

Video on Device app
pre-loaded showing how
to properly clean and
disinfect the WT6300

Easy and cost-effective migration
from Windows CE and legacy
wearable mobile computers

Painless, cost-effective migration from Windows CE

Easily migrate your WT41N0 key-based Windows CE apps...

...right to the WT6300 with optional keypad — no need to change the look and feel of your apps or workflows, minimizing training...

...and just remove the keypad to migrate to Android touch-based apps when you're ready

Got TE apps? No problem! Automatically transform TE screens to fully interactive Android screens with Mobility DNA's All-touch TE* (optional, available for purchase)

Cost-effective, easy migration from Zebra's WT6000

The WT6300
delivers the power
of today's most
advanced mobile
technologies...

...with full
compatibility with all
of your WT6000
accessories

All the right accessories make device management easy

Charging/Power Options

WT6000/RS6000
2-slot cradle

5-slot WT6000 or RS6000 cradles
10-slot WT6000, RS6000 or combo cradles

WT6000 single slot cradle
w/spare battery charger

Batteries, 4- and 20-slot battery chargers,
power supplies and cables

Mounts

Wrist-mount and hip-mount

Keypad

Wrist-mount Accessories

Replacement
comfort pad

Small/medium,
medium/large and
extra large wrist straps

Flexible cradle installations for any size enterprise

Solutions for every size deployment

Solutions for small deployments with a handful of devices to large enterprises with the high density of devices and spare batteries

Three deployment options

Place cradles on desktop, mount on the wall or in a standard IT rack

Everything your workers need
to maximize productivity

Built on the most powerful 'ultimate series' Android platform

Most advanced processor

– SD600 2.2 GHz

Desktop-like performance on even the most demanding applications — with less power for longer battery cycle times

Most advanced Android OS

– Android 10

– Upgradeable to 11

Superior future-proofing and the latest productivity-enhancing OS features

Shared platform

– Large portfolio with shared hardware and software architecture

Easily port applications across Zebra devices... and simplify device deployment and support

Unsurpassed 10 year lifecycle

5 years for sale

5 years serviceable post end of sale

10 years of Zebra OneCare service

10 years of LifeGuard™ for Android™

Regular security patch and OS updates to keep your devices secure throughout their entire lifecycle

Instant visibility into available OS updates and the urgency level

Eliminates automatic updates from Google, preventing workday disruptions and device and app compatibility issues

Remotely update all devices over the air via your supported EMM, all with the push of a button

View status to ensure all devices are updated via Zebra's VisibilityIQ™ OneCare™ cloud-based tool

*LifeGuard™ for Android™ is free with every Zebra OneCare support contract

More peripheral functionality, flexibility and simplicity...

✧ Superior Bluetooth Connections...

Increased application flexibility and performance for Bluetooth peripherals with Bluetooth 5.0

4X

the range*

Up to 800 ft./240 m

2X

the speed*

Up to 2 Mbps

**ALL WITH
LESS POWER***

Longer battery cycles

CLASS 1

class-leading range

Full bandwidth Bluetooth up to 300 ft.

...plus single tap pairing with integrated NFC

* Compared to Bluetooth 4.0; provides full bandwidth Bluetooth up to 300 ft./240 m

Give your workers the most reliable WiFi connections with the latest technology

2x2 MU-MIMO

Enables access points to communicate simultaneously with multiple mobile devices

Fusion

Zebra advanced proprietary features deliver superior wired-quality data and full-duplex voice connections

WorryFree WiFi

Mobility DNA tool that enables real-time WLAN troubleshooting and analysis for fast resolution of WiFi issues — before they impact worker productivity

802.11mc

Provides more accurate indoor locationing, enabling step-by-step directions through the most efficient path to complete a task*

GREATER RANGE

GREATER SPEED

‘NO-DROP’ CONNECTIONS

LESS POWER

Create a complete solution with ready-to-use
hardware and software applications

Workforce Connect PTT Express*

Get superior staff collaboration with the power of instant push-to-talk calls

Ready to use — just purchase the licenses and get up and running the same day

Workers can get instant answers to questions

Supervisors can improve task management efficiency

Everybody can do more, in less time

* An optional Mobility DNA tool available for purchase

Get fast
hands-free
scanning
and new image
capture
functionality
with a connected
Zebra ring
scanner

Capture new business intelligence with support for photos

Works with Zebra
RS5000 and RS5100
ring scanner connected
to the WT6300

Capture indisputable proof of
condition – such as an incoming
pallet with ripped shrinkwrap or
damage to an incoming pallet

Capture multiple barcodes with a single scan

Capture multiple barcodes on
one or more labels on an item in
record time with Mobility DNA 's
Multi-barcode Scanning tool

No need to
remember
which order to
scan barcodes

No more covering
up nearby
barcodes to scan
the right label

Boost productivity with Zebra’s FulfillmentEdge™ (optional)

Enable picking of 24% more orders a day*

Reduce onboarding/training by 90%*

Enable one worker to complete multiple work orders on one trip through the warehouse

Put detailed instructions right in the worker’s line of sight with the HD4000

Enable faster and more accurate picking with a Zebra ring scanner

Mobility DNA

INTRODUCING

MOBILITY DNA

EXPERIENCE A NEW BREED OF MOBILITY.

What is Mobility DNA?

Mobility DNA's unique software ecosystem transforms Android into an enterprise-ready force. With Mobility DNA, you get much more than a device – you get an entire software ecosystem formulated for your workforce, managers, IT staff and developers. Application management is simpler. Integration is problem-free. And your operations become a powerhouse of productivity.

For more information about Zebra's value add Mobility DNA solutions, visit www.zebra.com/mobilitydna

Mobility DNA Management Tools

Take device management simplicity to a whole new level

Device Tracker

Easily track or find your lost or missing Zebra mobile devices. A web-based dashboard automatically collects and displays key tracking information for all of your supported WiFi connected Android devices.

FEE

Downloadable

Device Central

Provides a simple graphic interface that makes it easier for workers and IT to manage Bluetooth accessories.

FEE

PRE-LOADED

Enterprise Home Screen

Make sure your Zebra Android devices will only be used for work by defining which apps and which device features are available.

NO COST

Downloadable

LifeGuard

A lifetime security guard for your Zebra Android mobile devices, providing powerful automated management of the OS update process and security updates and patches for up to 8 years.

NO COST*

PRE-LOADED

Power Precision Console

Get the insights to identify and remove aging Zebra PowerPrecision+ mobile computer batteries from your battery pool, before they impact productivity, device uptime and ROI.

NO COST

Downloadable

StageNow

Quickly and easily stage your Zebra Android mobile computers, including industry-first control over access to Google Mobile Services (GMS).

NO COST

PRE-LOADED

WorryFree WiFi

Get the unmatched WiFi radio performance, issue analysis, troubleshooting and problem resolution, delivering superior application performance and exceptional voice quality.

NO COST

PRE-LOADED

*Free with any Zebra OneCare Support contract.

Mobility DNA Productivity Tools

Make it easier for your workers to capture information

All-touch TE

Automatically migrate your Terminal Emulation apps to Android quickly and easily — and when you're ready, migrate to a modern interactive HTML interface.

FEE

Downloadable

Device Diagnostics

Just press a button to test all major device systems to eliminate costly, unnecessary repair depot trips for issues that can be resolved on site.

NO COST

PRE-LOADED

DataWedge

Automatically integrate the data you capture with your Zebra devices into your applications—from barcodes and photos to NFC and magnetic stripe data.

NO COST

PRE-LOADED

Enterprise Keyboard

Provide your users with the Android soft keyboard they need to maximum data entry simplicity. Users can choose from 5 keyboard layouts with specially-sized keys for any size fingers, 4 methods for feedback, 4 auto-correct features, and more.

NO COST

Downloadable

Multi-barcode Scanning

Capture multiple barcodes on one or more labels on a single item or pallet — all with a single press of a button.

NO COST

PRE-LOADED

Power Precision+

Get the data you need to better manage your batteries, plus better battery design with PowerPrecision+ batteries. With visibility into battery health and state of charge, you can be sure all workers start their shift with healthy, fully charged batteries.

NO COST

PRE-LOADED

* All-Touch TE is free

Mobility DNA Development Tools

Simplify app development and fortify consumer Android for the enterprise

Mobility Extensions (Mx)

Provides a layer of features that lift standard consumer Android to a true enterprise-class operating system. And you're in charge — you choose which features you want to activate, and when.

NO COST

PRE-LOADED

Enterprise Browser

This powerful, next generation industrial browser allows you to build feature-rich web applications that integrate seamlessly with the features in Zebra mobile computers and peripherals — including barcode scanning, signature capture and more.

FEE

Downloadable

EMDK for Android

Integrate all the features and functionality in Zebra Android mobile computers into your applications quickly and easily.

NO COST

Downloadable

The Total Wearable Solutions Family

WT6300

RS6000

RS5100

RS5000/RS4000

HD4000

HS3100/HS2100

RS6000 1D/2D Two-finger Bluetooth Ring Scanner

- Ultra-rugged
- Designed for intensive scanning and the most extreme environments — including the freezer

Advanced Scanning Technology

The RS6000

Delivers Unparalleled Scanning Technology

Proprietary PRZM intelligent imaging technology

Offers dependable lightning-fast capture of barcodes

Advanced scanning algorithms

Enables first time capture of barcodes in any condition — poorly printed, dirty, scratched or smudged

Exceptional motion tolerance

No need to pause between scans, captures data as fast as your workers can press the trigger

Exceptional scanning range

From 2 in. to 90 in./5.08 cm to 228.60 cm away, more than **four times farther** than other ring scanners

Eliminate time consuming exceptions with first-time every time barcode capture

RS6000 Key Features Overview

Ultra rugged

Drop-proof, spray-proof, dust-proof;
Monocoque housing; freezer rated

Unparalleled scanning performance

PRZM Intelligent Imaging and advanced scanning algorithms to capture virtually any barcode in any condition

Exceptional motion tolerance for continual scanning

Exceptional scanning range — from 2 in. to 90 in./5.08 cm to 228.6 cm

Flexible wearing modes

Wear on two fingers and switch hands on the fly with swivel feature to minimize fatigue

Easy pairing

Just tap to pair with the WT6300

Manual and automatic scanning

Improves task speed and worker efficiency

Flexible Class 1 Bluetooth

Roam up to 300 ft./91 m away from host device

Line-of-sight LEDs

Instant verification of a good scan, use color coding to direct user activity

Flexible and easy charging

Shares the same standard battery as the WT6300; no need to remove the battery to charge — just drop the RS6000 into the cradle

Supports intensive scanning

Scan up to 70,000 barcodes on a single battery cycle

WiFi friendly mode

Won't interfere with your WiFi network

The Total Wearable Solutions Family

WT6300

RS6000

RS5100

RS5000/RS4000

HD4000

HS3100/HS2100

RS5100 1D/2D Single-finger Bluetooth Ring Scanner

- Practically weightless at less than 3 ounces
- Rugged
- Multiple wearing options
- Multiple scan engines

Maximum flexibility with multiple wearing styles

Single or double trigger options

Can be worn on either hand

Single-sided trigger: use on either hand, with or without gloves

Double trigger: switch hands on the fly; designed for use on bare fingers or light gloves

Back of the hand mount

Wear on a bare hand or over standard low-cost gloves

One-size-fits-all and ambidextrous

Durable materials resist wear – only the wrist strap is fabric

Lanyard mount

Lightweight lanyard mount

Worn around the neck or on the hip, with a retractor

Ideal for workers who prefer not to wear a scanner on a finger or hand

Adaptable for more use cases

There's a wearing style for every worker: right or left hand, finger, back of hand and lanyard

Industry-first top-mounted trigger for picking in tight spots

Lets workers wear the RS5100 on the side of a finger

Near zero protrusion above the hand – ideal for picking in tight spots

Prevents impacts with store shelves and displays

Can be used on both the single and double-sided trigger options

Improve hygiene with personal triggers

Prevent the spread of germs

Modular two-piece design separates the trigger from the scanner

Give each worker his or her own trigger – the only part of the RS5100 that touches skin

Trigger finger mount

Trigger comfort pad

LEDs

lead the way to the
most efficient path

Multiple LEDs on the rear housing can be programmed using four colors and varying blink rates to provide information that can improve efficiency — such as which way to turn to reach the next pick location, whether the item scanned is correct and whether a scan was successful.

RS5100 Key Features Overview

Featherweight comfort

Just over two ounces and two cubic inches

Unparalleled scanning performance

PRZM Intelligent Imaging and advanced scanning algorithms to capture virtually any barcode in any condition

Choice of scan engines

Choose the SE4710 for standard scanning and the SE4770 for intensive scanning

Around-the-clock power

Removable batteries, standard battery for 12 hours of power, extended battery for longer shifts

Rugged

Drop-proof, spray-proof, dust-proof; long-life trigger rated for millions of presses

WiFi friendly mode

Won't interfere with your WiFi network

Three trigger options

1. Single trigger – with or without gloves, on either hand
2. Double trigger – switch hands on the fly for maximum comfort, designed for bare fingers or light gloves
3. Top trigger to wear on side of finger – ideal for the tightest picking spots

Easy pairing

Just tap to pair with the WT6300

Three wearing styles

Wear it on the right or left hand on a finger or back of the hand, or on a lanyard

Flexible Class 1 Bluetooth

Roam up to 300 ft./91.44 m away from host device

Save time and money in the backroom

High capacity ShareCradles can charge 20 RS5100 scanners or 40 RS5100 batteries

The Total Wearable Solutions Family

WT6300

RS6000

RS5100

RS5000/RS4000

HD4000

HS3100/HS2100

A male warehouse worker in a red and grey long-sleeved shirt is operating a forklift in a warehouse. He is holding a Zebra RS4000 or RS5000 corded ring scanner in his right hand, pointing it towards a stack of cardboard boxes on a pallet. The scanner is a small, black device with a yellow button and a coiled cable. The background shows tall warehouse shelves filled with boxes.

RS4000 1D and RS5000 1D/2D Single Finger Corded Ring Scanners

- Cost-effective 1D/2D or 1D scanning
- Rugged
- Ambidextrous — just swivel to switch fingers on the fly
- Separate finger strap assembly allows you to give each worker to improve hygiene and prevent the spread of germs

RS4000/RS5000 Key Features Overview

Rugged

Drop-proof, spray-proof, dust-proof; long-life trigger rated for millions of presses

Separate finger strap

Give each worker their own finger strap to prevent the spread of germs

No battery required

Draws power from the WT6300, so there is no separate battery to charge and manage

Highly ergonomic

This lightweight, single finger device provides all-day comfort for your workers

Wide field of view

Easily capture large barcodes

Ambidextrous — on the fly

Convenient swivel features allows users to switch between hands at any time to prevent fatigue

The Total Wearable Solutions Family

WT6300

RS6000

RS5100

RS5000/RS4000

HD4000

HS3100/HS2100

HD4000 Enterprise Head-Mounted Display that's all business...

Rugged design
built to last
for years

All-day comfort

Clear and
bright display

Easy to deploy –
no batteries
or staging
required

Easy to use –
just plug it into
the WT6300
and turn it on

Easy to integrate
into new and
existing
applications

Everything you need in an enterprise-class accessory

Cutting Edge Design

Crisp image quality

- Best-in-class head-mounted display technology
- Unmatched color, contrast and image clarity

Minimize eye fatigue

- Focal distance is optimized for head-mounted applications
- Change the HD4000 from the right eye to left eye in seconds

Remove from view in a split second

- Simply flip up the display and it's out of view
- Won't distract workers during a conversation or prevent visibility

Feather-light for extraordinary all-day comfort – less than 1.06 oz./30 g*

- Lighter than any other enterprise wearable display on the market — workers will barely feel it

Hygienic design made for sharing

- Mounts to commercial, off-the-shelf safety glasses so you can give each worker their own pair of glasses

Ingenious accessory architecture

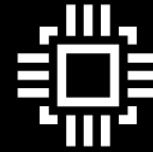

NO batteries

- Uses the battery in the host mobile computer
- No additional battery pool to purchase and manage
- Eliminates health risks associated with battery proximity to face, eyes, nose, ears and mouth

NO processor

- Uses the processor in the host mobile computer
- Eliminates need to consider processing power when purchasing – leverages the power of the mobile computer

NO WiFi or cellular radios

- Uses the radios in the host mobile computer for a transparent connection to WiFi and cellular wireless networks
- Nothing to configure and certify on your network

LESS WEIGHT...LESS EMISSIONS...AND NO HEAT

In the warehouse...

Imagine how many more 100% accurate pick orders your workers can complete every day.

Project the information warehouse workers need, right into their field of view...

- The next pick order
- Directions through the warehouse to the right pick locations
- Confirmation that the right item was selected

BENEFITS

- Streamline and accelerate pick and pack operations
- Reduce user training/onboarding requirements
- Handle peak demand with ease

In manufacturing...

Imagine the throughput increase in your assembly lines.

Project the information assembly line workers need, right into their field of view...

- Step-by-step instructions
- Real time visual documentation of critical characteristics
- Access to checklists, work manuals and reference guides for complex assembly

BENEFITS

- Better quality control
- Increased production volumes...without adding assembly lines or workers
- Less training required — new workers are up and running faster

The Total Wearable Solutions Family

WT6300

RS6000

RS5100

RS5000/RS4000

HD4000

HS3100/HS2100

A man in a warehouse setting is wearing a Zebra headset and a wrist device, pushing a pallet jack. The background shows industrial shelving and boxes.

HS3100 Bluetooth and HS2100 Coded Rugged Headsets

- Designed for industrial environments
- Perfect for speech-directed applications
- Clear HD Voice

HS3100/HS2100 Key Features Overview

Featherlight

Extraordinary comfort — at just 3.5 oz for the corded model and 4 oz. for the Bluetooth model, your workers will barely know it's there

Easy pairing

Just tap to pair with the WT6300

Superior voice quality and clarity

HD Voice and unsurpassed noise cancellation technology

Two flexible wearing styles

Over the head with a swivel boom to change ears, or over the neck

Around the clock power

The removable battery offers a 15-hour run time (Bluetooth model)

Ready for everywhere

Indoors, outside and the freezer, with operation down to -30° C/-22° F

Rugged

Drop-proof, waterproof and dust-proof

Prevent the spread of germs to protect your workforce

Built to handle wipedowns and the modular design allows you to give workers their own headband, windscreen and pads (ear, headband and temple)

Services

Zebra OneCare®

Maximize device uptime and reduce device vulnerabilities

Keep your WT6300 devices and peripherals up and running and avoid unexpected repair costs. Boost accuracy and efficiency in your workflows. Ensure predictable performance, support for critical operations and improved business outcomes while eliminating unbudgeted repair expenses.

Zebra **OneCare ESSENTIAL** Core Protection

- Comprehensive repair services; if it breaks, we fix it
- 3-day repair turnaround time (TAT)
- Priority access to live-agent Tech Support 8x5, 17 languages
- 24/7 access to self-service tools
- Full access to software updates and LifeGuard for Android security updates
- Cloud-based VisibilityIQ™ OneCare™ for access to contracts, repairs, LifeGuard status and more
- 3-year or 5-years of protection

Zebra **OneCare SELECT** Maximum Protection

Includes all Zebra OneCare Essential features, plus:

- Like-new advance device replacement next business day from a Zebra spares pool
- 24x7 Level 1 support
- Fully commission device with your software, apps, OS and LifeGuard versions so returned device is ready to go out of the box

BENEFITS

- Enhanced support beyond standard warranty coverage
- Genuine Zebra expertise and parts maximize device uptime – ensure your device is back to Zebra's manufacturing specifications
- Outstanding value – eliminates unexpected repair costs with a planned support agreement
- Let Zebra handle support, while you focus on your strategic initiatives

Capture your performance edge with Sharper Device Visibility

*Stop guessing the status of your devices
Start improving operations*

VisibilityIQ™ Foresight

Business intelligence tool providing full visibility to operational aspects of your devices from a single cloud-based view. Instantly know all your mobile computing device metrics from a single pane of glass to streamline your workflows.

VisibilityIQ™ DNA

Peer inside your hardware for answers to key DNA efficiency. See how to fully utilize key DNA tools.

VisibilityIQ™ OneCare™

Included within our Zebra OneCare contracts, access cloud-based reports that focus on uptime, savings and security. View device repairs, contracts, security and more to eliminate unplanned downtime and expenses for your Zebra mobile computing and scanning devices.

Zebra
VisibilityIQ™
Powered by Zebra Savanna™

Learn on the go with Video on Device

Secure way to educate associates on...

- Device functionality
- Cleaning and sanitizing
- Trouble shooting

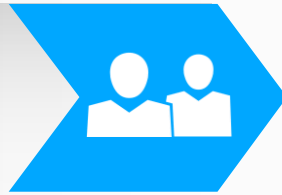

Benefits...

Rapidly train your staff in new technologies

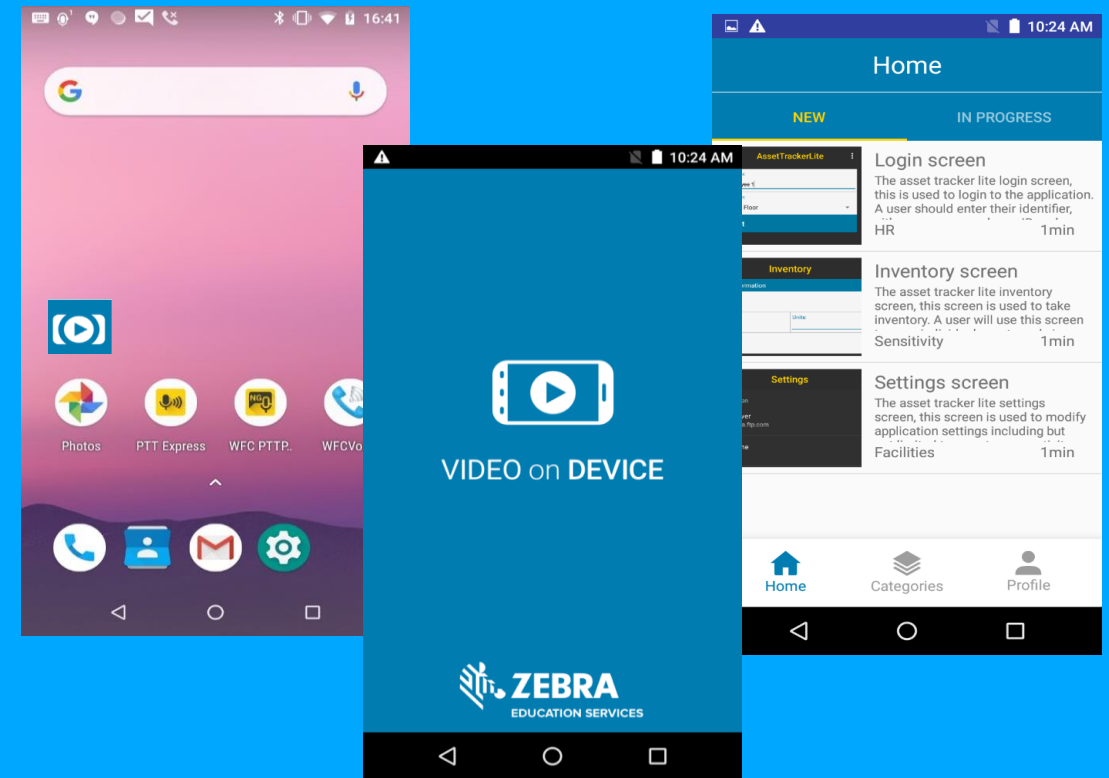

Quick ROI from solutions

Develop high-performance distributed workforce

Drive user adoption with pre-loaded Video on Device

Learn anytime, and anywhere!

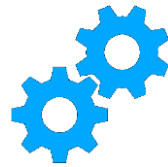

Signature Services offerings

From A to Z — solution design, business process re-engineering, integration, deployment, training, project management and more

LEARNING AS A SERVICE

Quickly bring employees up to speed with a variety of training options that support rapid return on your technology investments.

SOFTWARE INTEGRATION

Accelerate success by applying integration best practices.

RFID DESIGN

Improve the speed, cost and profitability of any RFID project.

SOLUTION JUMPSTART

Reduce unplanned costs and minimize downtime with full proof of concept.

SOLUTION VALIDATION

Test your custom Zebra-related applications with your existing IT systems and business workflows.

PROGRAM MANAGEMENT

Minimizing risks to project schedules, implementation results and end-user adoption.

MOTIONWORKS SIGNATURE SERVICES

Ensure your MotionWorks location solution gets deployed with the proper design, architecture, integration with legacy IT systems and user adoption.

WORKFLOW & DESIGN CONSULTING

Analyze your business processes, existing infrastructure and technology with strategic workshops tailored to fit your unique requirements.

VOICE ENABLEMENT

Implement customized voice solutions that integrate voice applications into mobile computing.

Why Zebra

The leader in enterprise Android

- We have committed to Android since 2011
- We are the undisputed leader in enterprise Android:
59% market share in 2019, with 27 Android-based products
- We have invested more than \$300 million in Mobility DNA and refined it through multiple OS versions and thousands of deployments
- We added important enterprise security, device management, application management and data capture features
- No other vendor offers such a comprehensive ecosystem of software to support rugged Android devices in the enterprise

Only Zebra offers a deep understanding of software and industry needs
